

2016 CIGNA INDONESIA ACTUARIAL DEVELOPMENT PROGRAM

Blueprint and Strategy

Together, all the way.™

Actuaries in Indonesia - Background

- Scarcity of actuaries and actuarial talent in the market
- From statistics, there are only 175 local qualified actuaries in the market, while the market demand is 600. From the 175, some of them are retired.
- OJK (regulator) really focus on supporting “Growing 1,000 actuaries” program
- OJK desired that the market will have enough local qualified actuaries in 2016
- Each of insurance company (Life and General insurance) is required to have at least one local qualified appointed actuary for signing
- The gap of actuarial talent now partly filled by expats, mainly from Singapore, Malaysia, Hong Kong, US and etc.
